Student Experience of Your Teaching

Very High

Students experience responsive teaching where clear explanations, intellectual stimulation, and actionable feedback work well together. They feel that feedback directly improves their work and deepens understanding. Teaching is perceived as using sophisticated approaches that engage students with challenging ideas and advance their learning. Opportunities for further enhancement can be considered if thought to be relevant and productive.

Suggested Actions for Enhancement

You could share good teaching practice with colleagues and positively impact teaching practice across the university.

- * [Showcase innovations to inspire others across the university.](#)
- * [Share your education excellence story with the Monash teaching community.](#)
- * [Participate in the Education Excellence Program \(EEP\) as a pathway to Advance HE Fellowship.](#)

Low (≤ 34)**Medium (35-64)****High (65-84)****Very High (≥ 85)**
